Preface by Malcolm Sawyer

The Global Economic Crisis: An Introduction
Emiliano Brancaccio and Giuseppe Fontana

PART I: ECONOMIC THEORY

1. On the Supposed Completeness of the Mainstream Theories of Crisis
   Emiliano Brancaccio

2. Economy and Economics: The Twin Crises
   Alessandro Vercelli

3. The Great Recession and the Third Crisis in Economic Theory
   Riccardo Bellofiore and Joseph Halevi

4. As If Nothing Were Going to Happen: A Search in Vain for Warnings about the Current Crisis in Economic Journals with the Highest Impact Factors
   Andrea Imperia and Vincenzo Maffeo

PART II: LABOUR, DISTRIBUTION AND PROFIT TRENDS

5. Changes in Income Distribution, Financial Disorder and Crisis
   Aldo Barba and Massimo Pivetti

6. Income Distribution and Borrowing: Tracking the U.S. Economy with a “New Cambridge” Model
   Gennaro Zezza

7. Changes in Functional Income Distribution in Italy and Europe
   Antonella Stirati

8. Low Wages, Consumer Credit and the Crisis: A Monetary Theory of Production Approach
   Guglielmo Forges Davanzati and Riccardo Realfonzo

9. Back to the Future? The Tendency of the (Maximum) Rate of Profit to Fall: Empirical Evidence and Theory
PART III: INTERNATIONAL ECONOMIC RELATIONS

10. The International Circuit of Key Currencies and the Global Crisis: Is There Scope for Reform?
   Lilia Costabile

11. Globalisation and the Great Crisis
    Ernesto Screpanti

12. The Global Crisis in Low- and Middle-Income Countries: How the IMF Responded
    Andrea F. Presbitero and Alberto Zazzaro

13. Notes on Europe, German Mercantilism and the Current Crisis
    Sergio Cesaratto

PART IV: ECONOMIC POLICY

    Bruno Bosco

15. Property Rights in the Knowledge Economy: An Explanation of the Crisis
    Ugo Pagano e Maria Alessandra Rossi

16. Employment and Income Distribution from a Classical-Keynesian Point of View:
    Some Tools to Ground a Normative Analysis
    Enrico Bellino
List of Figures

2.1 The spiral of the interaction: 1900-2010
5.1 Household saving rate and after tax income distribution
5.2 Household debt and public debt
6.1 Private sector saving and investment
6.2 Households and business debt outstanding
6.3 US net foreign assets and external balance
6.4 Difference between growth in asset prices and growth in GDP
6.5 Real growth in M1 & M2, and real interest rate
6.6 Income limits for each fifth and top 5% of households
6.7 Average weekly earnings in 1982 dollars: Manufacturing
6.8 Female share of nonfarm employment
6.9 Average weekly hours of production workers: Manufacturing
6.10 US unemployment rate
7.1 Adjusted wage shares, manufacturing and business sector services, Italy
7.2 Contribution of real compensation over productivity and cost of living over price deflator to changes in wage share – manufacturing, Italy (5-years moving averages)
7.3 Contribution of real compensation over productivity and cost of living over price deflator to changes in wage share - private services, Italy (5-years moving averages)
7.4 Consumer price index and business sector service deflator over manufacturing price deflator, Italy
7.5 Gross margins over labour costs per unit of product
7.6a Metal-working industry - compensation and value added per employee in terms of product price 1980=100
7.6b Metal-working industry - real compensation in terms of cost of living index and value added per employee at constant prices 1980=100
7.7 Real compensation per employee – manufacturing, Italy
7.8 Adjusted wage share, total economy
7.9 Adjusted wage share, manufacturing
7.10 National consumer price index over manufacturing deflator
7.11 Proportion of margins in business sector services and manufacturing
7.12 Proportion of margins in business sector services excluding real estate and manufacturing
7.13 Adjusted wage share, business sector services
8.1 The monetary circuit
9.1 Output per unit of capital
9.2 Labour productivity
9.3 Wage share
9.4 Gross profit rate
9.5 The standard system and the falling of the maximum rate of profit
9.6 The real system and the substitution of machinery for labour
9.7 The real system and the Okishio theorem
9.8 The path to steady state
9.9 The tendency of the rate of profit to fall
9.10 The tendency of the rate of profit to fall as a process
9.11 USA: Corporate non financial sector
12.1 The global crisis
12.2a The Financial crisis and the IMF lending arrangements in 2008-2009: PRGF-eligible Countries
12.2b The Financial crisis and the IMF lending arrangements in 2008-2009: Other middle-income countries
12.3 IMF lending and country characteristics
12.4a IMF lending and country economic characteristics: Reserves (in months of imports) in 2007
12.4b IMF lending and country economic characteristics: Current account balance (%GDP) in 2007
12.4c IMF lending and country economic characteristics: Log of GDP (in current USD) in 2007
12.5d IMF lending and country economic characteristics: Per capita GDP (in current USD) in 2007
12.5a IMF lending and political and economic proximity with G-7 countries: Official aid from G-7 (%GDP) in 2007
12.5b IMF lending and political and economic proximity with G-7 countries: Voting similarity with the USA
12.5c IMF lending and political and economic proximity with G-7 countries: Debt to private creditors (%GDP) in 2007
12.5d IMF lending and political and economic proximity with G-7 countries: Trade with G-7 countries (%GDP) in 2006
14.1 Three indexes of European privatized firms and the Dow Jones Index for Europe
14.2 Quota and Composite Index
14.3 Scatter plots with Kernel fits of the 3 Indexes and Quota
14.4 Returns RDCOMP = dlog(COMPOSITEINDEX) and RDJ = dlog(DJ)
14.5 Differential Return Rdelta
16.1 The contract curve (CC’) and the utility frontier (UF)
16.2 Univocal determination of factor prices
List of Tables

6.1 Social matrix for the Levy model
7.1 Growth rate of real compensation – manufacturing, Italy (1962-2006)
7.2 Growth rate of real compensation – manufacturing, Germany, France, Spain
10.1 Federal Reserve balance sheet
11.1 Growth rates of real GDP
12.1 IMF lending arrangements started in 2008-2009 (thousands of USD)
12.2 Variables: description, sources and sample means by participation in IMF programs
12.3 Sample of low- and middle-income countries
14.1 Test for equality of means and variances between DJ and Composite Index 1995M02 2005M02
14.2 Group unit root test for DJ and Composite Index 1995M02 2005M02
14.3 Test for equality of means between RDCOMP and RDJ 1995M03 2005M02
14.4 Test for equality of variances between RDCOMP and RDJ
14.5 Cointegration rank test between RDCOMP and RDJ with lags interval (in first differences): 1 to 4
14.6 Unit root test of RRDELTA
14.7 LS estimation of RDCOMP 1995M03 2005M02 white heteroskedasticity - consistent standard errors and covariance
